

I just want you to know how much K-LOVE means to me as a music lover, but more importantly a child of God. I get to worship my Lord and Savior everytime I turn on K-LOVE, which is every chance I am in my car (and that is almost all the time). I hate commercials and all that talk.

K-LOVE has affected my mood at work making me a happier person and I am sure this affect has rippled throughout the community and all across the US wherever anyone is listening to K-LOVE. If K-LOVE were to go off the air I would be devastated as well as millions of listeners and the millions of listeners who have yet to turn on the station and become hooked to the positive uplifting Christian music. I believe this station is critical to all people - those who believe in what they are listening to and those who will become believers by staying tuned. K-LOVE is sooo important to me! Don't take it away. Thank you.
